# Data Usage with ExakTime

ExakTime prides itself on our app's **very low data usage**: good news to everyone from company owners to supervisors and employees.

ExakTime record transmission is in bytes. It takes a million bytes to equal 1MB, which is a tiny fraction of a gigabyte.

| Data Used	What was sent
2,200 bytes	1 ExakTime record
2,900 bytes	2 ExakTime records
7,000 - 11,000 bytes	1 record with a FaceFront picture
