

Using Mobile Learning

The Arcoro app allows you to start your courses and reviewing your training history.

Begin Learning from the “Profile” menu with the “My learning and certifications” tile. If the tile is missing, check with your office.

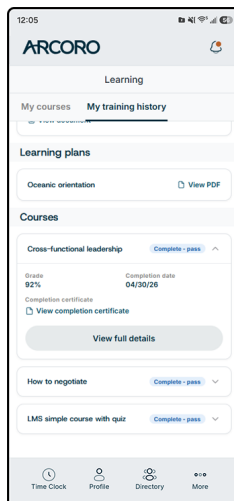

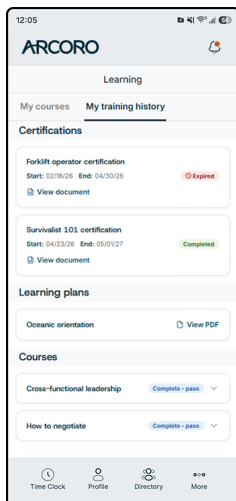

“My Courses” will show you your enrolled or assigned courses.

Tapping any of your courses will show you:

- **Start/End Date**
- **Prerequisites**
- **Approved by**
- **Assigned date**
- **Status** – Scheduled/In Progress/Completed
- **View Full Details button** – Shows the full course details from the course catalog.
- **Withdraw button** – Withdraw from a course, if applicable.
- **Launch Course/View Class button** – Launch the course, if applicable, or view the class you are enrolled in.

After a course is complete, the app will track the status and mark the course complete as appropriate.

“My Training History” shows certifications, assigned learning plans, and courses.

Certifications — A read-only list of certifications with title, start/end dates.

- A view document link opens the document attached to the assigned certification in an in-app viewer.
- If a certification is expired, it will show an “Expired” tag. If it is not expired, it will be listed as “Completed”

Learning Plans — A read-only list of all learning plans with a title and a link to view the learning plan document.

Courses — A list of all completed courses or courses you cannot interact with, such as withdrawn or cancelled courses. Courses can show grade, completion date, and the completion certificate link if it is available.
